Let's not say another word
We don't need to question why
let's us pass through this moment
Like a candle in the night

We don't need to wave goodbye
This is not the final song
Eventhough in our sadness
Tears may fall*

*Take my smile, hold it in your heart forever
And I will be with you wherever you may go**/**

**How much pain must we teste
How much sorrow must we know
Will we only learn in losing
How to cherish what we hold

But our love is like the wind
We can't hold it in ours hands
In the light of the new day we will understand, So*

***May the road rise to meet you on your way
May the sun always shine upon your face
And until journy brings us back together
May God hold you in the centre of his hand+

+May the road rise to meet you on your way
May the sun always shine upon your face
And until journy brings us back together
May God hold you in his hand***
