Every night when I'm all alone
I think of you and I'm feeling strong
I'm wishing you would just look my way
Let me be the one

My heart is aching for that special girl
Now come on in and share my world
Someone to love and someone whole
Let me be the one, I love you
I need you girl and I need you now
I get you looking at me somehow
The love I have is an open door, girl
Come on the air, let's begin
I love

I wanna be the one you're givin' your lovin'
I wanna be the one you're kissin' and huggin'
I wanna be the one you dream of at night
Let me be the one I love you
I wanna be the one you're kissin' and huggin'
I wanna be the one you're givin' your lovin'
I wanna be your honey, sugar and spice
Let me be the one, I love you baby

I don't believe it should take so long
To find someone I could call my own
Just come, girl and say you'll fill my love
It's a burning love, my baby
My heart is aching for that special girl
Now come on in and share my worl(d)
Someone to love and someone whole
Let me be the one, my baby
I need you girl and I need you now
I get you looking at me somehow, baby
The love I have is an open door, girl
Come on the air and let's begin
I love

I wanna be the one you're givin' your lovin'
I wanna be the one you're kissin' and huggin'
I wanna be the one you dream of at night

Let me be the one I love you
I wanna be the one you're kissin' and huggin'
I wanna be the one you're givin' your lovin'
I wanna be your honey, sugar and spice
Let me be the one, I love you baby

My
I need you girl and I need you now
I get you looking at me somehow, baby
The love I have is an open door, girl
Come on the in, let's begin
I love

I wanna be the one you're givin' your lovin'
I wanna be the one you're kissin' and huggin'
I wanna be the one you dream of at night
Let me be the one I love you
I wanna be the one you're kissin' and huggin'
I wanna be the one you're givin' your lovin'
I wanna be your honey, sugar and spice
Let me be the one, I love you
I wanna be the one you're givin' your lovin'
