How can I explain
The sorrow and my pain
I believe that you and I should be
Together once again

Every night I pray
That you'll come back to me
But the tears keep falling down my face
When you're not around

(CHORUS)
But now you're gone
Gone away
All I do is wait for you
Each and every day
(REPEAT)

Oh,
I'm waiting for your love
I'm wondering where you are
Are you with another guy
Are you showing him your world

Oh,
I'm waiting for your love
I want to see your smile
Brighten up my day
Yes I'm waiting for your love
Yes I'm waiting for your love

Many sleepless nights
I've waited by the phone
I'm wondering where you are tonight
If you're all alone

If I had another chance
I'd never let you go
My heart's been broken in two
And it's all because of you

(CHORUS)

Now your gone
Gone away
All I do is wait for you
Each and every day
(REPEAT)

Oh,
I'm waiting for your love
I'm wondering where you are
Are you with another guy
Are you showing him your world

Oh,
I'm waiting for your love
I want to see your smile
Brighten up my day
Yes I'm waiting for your love
Yes I'm waiting for your love

Oh,
I'm waiting for your love
I'm wondering where you are
Are you with another guy
Are you showing him your world

Oh,
I'm waiting for your love
I want to see your smile
Brighten up my day
Yes I'm waiting for your love
Yes I'm waiting for your love
