Faceless faces in the "net"  
Sleepless watchers of mankind (us)  
The society of "chosen ones"  
(No) traces left behind

Masked by mist and mystery  
Dim lit heads, the masterminds  
transparent Faces - silent control  
yet knowing - the unknown

Motionless spawns, governors of life  
Hold sway over the earth ...(eternally)  
hidden faces, superior command  
owners (of the) portal, of mass control

Rulers of this plent. Lords of the flies (us!)  
raging wars, spreading lies, in control, over mankind.

We are the slaves. We the mass. (We the flies.)  
Knowing nothing in the hands of imaginary gods.

Rulers of this plent. Lords of the flies (us!)  
raging wars, spreading lies, in control, over mankind
