"When I look at love, I look at you  
Look at me and you'll see, love is burning inside me  
But the flame needs you to make it brighter  
Give to me what you see, make the moment a lifetime"

Give your love  
Give your love, to only me  
Give the chance I need to let you see  
You will be the other half of me

Give your love  
Oh, Give your love, and lead the way  
Turn the cold of winter into may  
Thru a thousand winters love will stay

We'll build a dream, just big enough for two, girl  
We'll build a world, that's made of only love  
You'd be the one who makes my life worth living  
You'll keep me strong when I stumble and I fall

So, Give your love  
Give your love, don't let me down  
Don't be queasy to a lover's clown  
You'll know that I'll always be around

"Everyday that we're apart, I cry girl  
When you're gone, all I long for is when you'll be near  
me  
Everyday a thousand times I die girl  
Far away how I pray there is some way you hear me"

Give your love  
Oh, Give your love, your tears and pain  
I will be your shelter thru the rain  
Thru the storm my love for you won't change

So, Give your love  
Give your love, and give your heart  
Never, never will love let us part  
We were meant to be lover's from the start

So, Our love love  
Give your love, don't let me down  
Don't be queasy to a lover's clown  
You'll know that I'll always be around
