TO KNOW YOU IS TO LOVE YOU

To know you is to love you
But to know me is not the way you see
'Cause you made me so happy
That my love for you grows endlessly
When I'm down and feelin' sad
You always comfort me
Baby to know you is to love you
Is to see you bein' free as the wind

'Cause the power of your lovin'
Is too strong to hold within
I know you and I think I love you
I know you and I think I love you
I know you and I can feel our love just growing,
growing, baby
Hey doggone it baby
