Morning side  
System's gone from me  
After love debris's still with me  
Not doin' all right

Apetite  
I can't even think  
No sign of relief is...  
Not doin' all right

'Cause I've got an upset stomach  
From a broken heart  
A tear stained pillow  
From my crying eyes  
A migraine headache  
That just won't go away  
Because I think our love has fallen apart

Sunny skies  
Are cloudy to me  
Black sad as can be confusing  
We're not doin' all right

Happy smile  
Has turned in reverse  
Before work I must rehearse you  
Not doin' all right

'Cause I've got an upset stomach  
From a broken heart  
A tear stained pillow  
From my crying eyes  
A migraine headache  
That just won't go away  
Yes I've got an upset stomach  
From a broken heart  
A tear stained pillow  
From my cryin' eyes  
A migraine headache  
That just won't go away  
Because I think our love has fallen apart

It's really hard  
You said go away  
(Repeat five times)

Be free  
Free me  
Alone  
Leave me free me  
Leave me alone  
Won't you leave me alone

I'm a soul  
Of the broken kind  
All feelings so fine have left me  
Not doin' all right

Only love  
Of the healing kind  
And what's down time can help me  
Back up to doin' all right

'Cause I've got an upset stomach  
From a broken heart  
A tear stained pillow  
From my crying eyes  
A migraine headache  
That just won't go away  
Because I think our love has fallen apart

It's fallen apart  
Our love has fallen apart

Yes I've got an upset stomach  
From a broken heart  
A tear stained pillow  
From my cryin' eyes  
A migraine headache  
That just won't go away  
Because I think our love has fallen apart
