Dismal source of energy scarce the food for life  
Empty is an empty world contaminated sights  
Collecting corpses all around building up their stock  
A morbid menu for mankind distastes distorts to shock  
Just how long will it last how much can they take  
Eating carcass as a meal in a frenzied state  
Feasting!!  
Corpses gather many round piles of bones and flesh  
Take the protein from the skulls of all those laid to rest  
Feasting, on skulls!! Feasting!!  
Starvation tearing at their guts eat the gore or die  
The awful taste stomachs turn "it's wrong" a mutant  
cries  
But is it worth it is it right  
Feasting on the skulls cadavers feel the pairs of death  
Now eat until you're full...  
Starvation  
Skulls our food  
We live on  
Feasting on skulls! Feasting!!  
Feasting on skulls!!
