You had us almost believing we were good enough for  
no one, no how  
You had us take it or leave it, it's the best deal you're  
gonna get right now son  
a little dig here, a little word did you really think that  
you could control us?  
Maybe we didn't make it clear, you can have your  
opinions but you don't own us

If I ever see your face again it will be far too soon  
to say the things I want to say to you.

You took us for this you took us for that  
You took us for granted you can't get away with that

If there comes a time when you have to decide whether  
to trust in someone new  
they have to have faith, they have to be true, they have  
to believe in what you do

If I ever see your face again it will be far too soon  
to say the things I want to say to you.

You took us for this, you took us for that  
You took us for granted, you can't get away with that

Maybe you're thinking i'm an angry man  
but you were building us up so we would knock each  
other down  
and you won't get away with it.....no way

If I ever see your face again it will be far too soon  
to say the things I want to say to you.

You took us for this, you took us for that  
You took us for granted, you can't get away with that
