If I combat those faces  
Then how is it shown to if or not to be to be alone  
If I combat those fears  
Then how could be in sense to be just tired of this  
Get rid of it

Have I failed you  
Just tell me  
I won't turn away

If my envy were something special to choose my own  
failure  
I waste I waste the time to say  
Cause if I combat those places  
Then how is it blamed even if not to be we  
Go out the same  
If I'm compelled to infamy what do you see weary  
I'm tired of this identity

What pathway  
Is my choice  
Decides

If this selfishness were something special  
I choose my own failure I'd waste  
I'd waste the time to be  
Is this something that I spite push deep down inside

So I'm guilty  
Do you see me  
Can you reach me  
Can you cleanse that's inside

To see this fate to just let go to break the point to break  
It so I'll take this weight and so then how I'll breath  
One word forgiveness from a TRUSTED CROWN  
His will is in me now  
How do you see me now  
Do you still think I'm proud  
With a virtue instilled somehow  
Presents such loss in DEVINE

ãnd so  
AWAKE

Even though I feel I'm down I'm low I wont let them  
Take my strength that flows even though they say I  
Should be ashamed I can't be the one who pulls against  
it  
Cause I know I see him he shapes me  
And so our future wasted because power they tasted  
They take this, burn this, bury this, shun this, but it  
GROWS
