Verse 1:

The life I knew has ceased to exist  
The will to live is slipping through my fist  
Left me with an emptiness inside  
Everything that I once was has now died  
You were everything I wish I could be  
A moment past, forever gone  
Death took the sun and stars away from me

Verse 2:

Everything is gone, nothing left  
Time has stopped waiting for death  
With your name upon my lips  
For this there is no forgiveness

Chorus:

I have fallen away from divinity  
Away from grace and all it's dignity  
I must fight against the reality  
Damned to dwell the darkness for eternity

Verse 3:

Feeling lost a darkness fills my soul  
Running from the shadows, losing control  
What the hell have I done to myself?  
Dead inside, but I still feel this pain  
I shall fight my way back  
Out of hell  
To recapture the love that God ripped away

(Repeat Chorus)

Verse 4:

Still I'm lost forever in hell  
Searching for the love God ripped from me  
God took her away for his own glory  
Then damned me to never see her face  
I dwell in hell knowing I shall not return  
Though I am dead my heart beats still  
Though I am dead my heart bleeds forever

Chorus:

Forever I am lost within myself  
An endless abyss of emptiness  
You took her away and left me to die  
Now a blackened soul with no tears to cry
