Verse 1

Dear God, why you let me be In this situation?
Loneliness that always following me home
Trapped in the middle of the darkness
*No one there can help me pull myself
Out off this situation
But your shadow
Will always be my sunshine... miss you

Reff

I want you to be the heart of my heart
Believe me I can really feel your heart
Just give me chance (will always be your sunshine)
Miss you

Verse 2

They say you just make me feel
Like I'm in the moon
Flying without gravitation
Have a dreams that is cannot be reached

Back to (reff)

Bridge

I beg you never leave me behind
And never go away from my dream.
You say you never give me a chance
You'll make my heart SCREAM

Reff...
