### Verse 1

Friday afternoon I woke up with my sore eyes  
Out of the blue you called me back again and it was  
paradise in hell  
You never wonder how I miss you much all this time..  
You never wonder how I feel for you for all this time

### Bridge.

I Thought you were gone away (from my memories)  
I Thought I ran away from you  
But you kept coming back to me  
And I just want u to know..

### Reff.

It's always been you who make me smile

It's always been you who make me cry  
It's always been you who who understand me  
It's always been you who I care about!!

### Verse 2

I tried to look to find another you but I always failed  
again and again  
And what was it in you that can make me smile when im  
down?

### Reff

### Chorus

I guess im stuck with you now  
I guess I have to let go of you  
But there's a problem in my mind  
It's I Love you!!!
