Its as if you didn't notice me  
it's as if you didn't care  
You wouldn't even look my way  
So I tried to keep my distance to let you cool off

I wanted to just talk to you  
To see what went wrong  
I would assume that Im to blame  
But my words sometimes tangle like a ball of string  
Why do you torture me this way

Is there something I should do  
Is there something I should say  
Or should I walk away  
Is there something I should do  
Is there something I should say  
Or should I walk away

What am I supposed to do  
I haven't got a clue  
If you still want me let me know  
Cause Im getting sick and tired of these walls you  
make  
Why must you torture me this way

Is there something I should do  
Is there something I should say  
Or should I walk away

it's as if you didn't notice me  
it's as if you didn't care  
You wouldn't even look my way  
But my words sometimes tangle like a ball of string  
Why do you torture me this way

Is there something I should do  
Is there something I should say  
Or should I walk away
