I got a remedy, it ain't no cup of tea
Can't find it in a pharmacy
A super battery, big ball of energy
A new revival that's fillin' me up

Like gasoline burning out of control
Heaven's love machine is taking over my soul
Like gasoline burning out of control
Heaven's love machine is taking over my soul

I got an appetite, I just think I might
Blow my top like dynamite
I'm glad I saw the light, Hank Williams got it right

I got revival and it's fillin' me up

Like gasoline burning out of control
Heaven's love machine is taking over my soul
Like gasoline burning out of control
Heaven's love machine is taking over my soul, yeah

Ah, gasoline
Ah, gasoline
Ah, gasoline

Like gasoline burning out of control
Heaven's love machine is taking over my soul
Like gasoline burning out of control
Heaven's love machine is taking over my soul

Gasoline
Gasoline
Gasoline
Gasoline
