How can you say I didn't like you anyway
You've got a way of making me feel whole
Well I don't know
If you feel the same just tell me now, I gotta know
I'm not willing to make the same mistakes
Because it's ok

And how can you deny her
When she sets you on fire
I believe it's more than real
I can't just let these feelings
Tell me I'm a liar
All my friends and entire
World I used to know
I wish I could just let you go

I didn't mean to make a scene, you see
I just thought that I should get to know you
I adore you
You tell me maybe you need some therapy
I just smile and say "what do I owe you"
Wanting to hold you

And you can trust that I'll give me soul
And I'll sit back and watch it go
And I'm tired, so tired
I hope your dream is to be with me
Baby you're just the sweetest thing
Should I kiss you
Honey I need

Your love tonight
Your love tonight
Your love tonight

Well I've tried to get you out of my mind
But this time I'm swallowing all my pride
As well as my soul
Sleep tight, think of me tonight
I will give you the moon
I will brighten up your life
I will bright up your life

And you can trust that I'll give my soul
And I'll sit back and watch it go
And I'm tired, so tired
And I hope your dream is to be with me
Baby you're just the sweetest thing
Can I kiss you
Honey I need
