Oh no, you're ready to blow
Your arms are tied, it's a hostage summer
Outside the moonlight
Another time that I helped you suffer

Now I now know I love you
Yeah, now I now know I need you

It's now time to ruin my life
Things are good and they keep getting better
Hold tight, this one she's alright
I hesitate but I can't wait to see her

Now I now know I love you
Yeah, now I now know I need you

You could call her my angel, she's my ace
She's got me dancing in my place
She's what I've been waiting for
Yeah she's my life
She must be heaven or she must be paradise
Yeah paradise

I thought I would never find her
Please believe me when I say
Oh when I say

You called call her my angel, she's my ace
She's got me dancing in my place
She's what I've been waiting for
She's my life
She must be heaven or she must be paradise

Yeah she's my angel, she's my ace
She's got my dancing in my place
She's what I've been waiting for
She's my life
She must be heaven or she must be paradise
