Oh,mighty gods of wrath  
Behold my sacred chant  
Guideth me through hell  
Guide me to my darkest  
Dreams of pagan fire  
Burn with black desire  
Wishful sins of lust  
Blacken in the soul  
Burning black desire  
Flames burn with lust  
Revive evil in us  
Embrace the sins of flesh  
I shall endure my sins 'till the end  
Holy ways defied  
Bound and crucified  
Lust in black disguise

I shall endure my sins 'till the end  
Holy way we've learned  
Sickening in turn  
Wishful sins to burn...  
Eyes afire blind as night burn in pagan fire  
Sins will yearn forever burn  
Burning black desire  
Oh,mighty gods of wrath  
Behold my sacred chant  
Guideth me through hell  
Guide me to a place of  
Blackened lust and damnation  
Burning black desire
