Foggy depths of storm  
Below a mist of sleep  
Twilight's gleam, cringing cold  
Black mystic deep  
Conqueror of might  
Messenger of doom  
Behold the midnight shadows  
Tranquil purple and deep

Feel the cold from the freezing fog  
Of the coldest reaping winds  
He who stands alone  
High and mighty, above all  
Darkness froze with reaping wind

From beyond afar  
The moonlight breaks the deadstill glare  
Of a funeral haze to come

My sleep grows deep  
With a reaping of woe  
Amidst the forest cold  
The moonlight steals my soul  
Destines I have come, to haunt evermore  
I am he, who stood here once before  
Veins (once) cold as ice  
River of destinies to come
