Is There Someone who Knows?
Is there someone who's directing this world?

Hey Hey did you see who has planted me out here?
All around my petals there are a thousand lives
Hey Hey the sun is watching me all the day long
And I don't really know
Why I have to be here
And I don't really know
But maybe Miss moon Knows about it

Hey hey did you see all those ones flying up here?
All upon my stems I feel there are a thousand lives
Hey Hey I can't fly like they do all the day long
And I don't really know why there are all these
differences
I really wanna know
Sure the stars are gonna help me one more time

I'm stuck here
And I feel so coarse inside
I'd love to find out the meaning of this being
Is there someone who knows?
Is there someone who's directing this world?

Hey Hey did you ever feel the light inside?
Yeah That one teaching you more than your own life
Day by day I'm seeing the signs arrive
And they've always been nearby
Yeah nearby to all our confusions
Yeah and this may also be on all our long black days

I'm stuck here
But I feel
I'm happy inside

I'm finding out the meaning we have in our different
beings
Is there someone who knows?
Is there someone who's directing this world?
