

## Sun Eats Hours "Prophet"

Visit "[Prophet](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Anywhere he's been he felt his mission  
Looking at the world's past  
Love is not such a conscious action  
It's like life's mystery

Life is something to care so much for  
We all are something to love so much  
He Raised his soul and took this challenge

So he's put across all that his heart said  
God knows how hard it was  
To hear all those ones laughing at him  
But he held out to the last

Friendship's something we all need so much  
Forgiveness is something we all need so much  
He Raised his voice singing out this yeah

You're acting like a dead soul  
Don't you feel that we're not from here?  
Histories of our past  
Are a part of what we're now  
But leave the fear to feel yeah  
Take what is your right  
Go and Make peace with your past  
Go! you're gonna feel the way
