(interpreted by steve ferrari)

The scars tell the memory
The way she moved I'm brought to my knees
I refuse
So goes for waiting
I fought friends from here
I return
When will words last?
I found my home
You comfort me soon my love
They come in and...

Hold my thoughts they're all that I have now
Hold my tears they're all that's left for you
If I should fall from grace with you my lord
Then sometimes...

The sky fell
The pictures scar
What dead men hide
It's all in our minds
I refuse
So goes my something
This story I heard
I return
When will ours last?
I found my home
You comfort me
Soon eyes look
They come in and...

This last time for you
Again I return

Yes I cry for you
Comfort me in my love

(interpreted by jamie sobol)

The stars tell the memory the way she moves I'm
brought to my knees
And I refuse, so goes the waiting, her footprints were
here
I return, when we , I found my home
You comfort me to my blood, they could here me
Dan - hold my thoughts they're all that I have now,
Hold my tears they're all that's left for you.
Oh if I should fall from grace with you my lord ?? in
sometime

The sky fell, the picture scar, what dead men hide, it's
all in a mind
I refuse, so goes that something, this story I've heard
And I return, and we , I found my home
You comfort me to my drug, they can't here me,
Dan - hold my thoughts they're all that I have now,
Hold my tears they're all that's left for you.
if I should fall from grace with you my lord ?? in
sometime

It's the last time for you again I return
It's the last time for you again I return

Dan - hold my thoughts they're all that I have now,
Hold my tears they're all that's left for you.
If I should fall from grace with you dear lord ?? in
sometime

Yes, I cry for
Comfort me my love
????
Comfort me again oh??
