Can I take grapes from your bowl
Take away the taste that I smell
Is it OK to use this pan
Yeh, I will use it to spit my pins in
Does everybody feel alright
Does everybody feel alright
Can anybody feel the night
Tonight's the night to be alright
Buzz the nurse and I'll make her moan
...and groan
Pass her round, yeh! the beds
Make everyone settle down...no!
Does everybody feel alright
Does everybody feel alright
Can anybody feel the night
Tonight's the night to be alright
Here it comes
Yeh! Now! Yeh!
Let go of me!
Yeh! Now!
I don't want you to give it to me!
Yeh, now, yeh, I wanna get rid of me
...did ya get that!
Be do be do do
Pills, are they good shall I try some
...yeh I should
Mmm, what's this, pethadone
Nice and relaxing
Yeh, now yeh
Does everybody feel alright
Tonites the night to feel alright
Does everybody feel the night
Tonite tonite to be alright
Now, give it to me, now
'Cos I'm takin' what I want
And it's gonna save me
Right now, now, I want drugs now
Oh no, oh no,
It's good
