"Power Struggle"

Visit "[Power Struggle](#)" on MotoLyrics.com

I will be here when you are gone so I have the right to a
power gorge
And I will be good at making bad and I'll light the way
for the fucking mad
I will defeat what I'm heading for and I will be here for
evermore
And I am the way of your empty shell
I want more than I am 'cause I was made to fly
'Cause I was made to fly and you were made to die
But I was made to fly
I will survive 'cause I want more and I will create a
bigger war
And I will rule over and give you hell and then you will
do as I command
'Cause I will be here when you are gone
Yeah, I'll still be here when you are gone
I'll fill you with fear of a holy sun
I want all that I am 'cause I was made to fly
Yeah, I was made to fly and you were made to die
And I was made to fly
I will defeat you, I will defeat you, I will defeat you, I will
defeat you
I will defeat you, I will defeat you, I will defeat you, I will
defeat you
Manipulate, interrogate, compete all you like
And dominate with forceful hate 'cause you know I will
defeat you
You were made to fight
Yeah, you were made to fight
And I was made to fly
But you were made to die
'Cause I was made to fly
Yeah, I was made to fly
And you were made to die but I was made to fly

I will defeat you
