"Spade And Parade"

Visit "[Spade And Parade](#)" on MotoLyrics.com

They don't want to stay here any longer
Though i remove, spade and parade
The guilt and bones through my sandcastle

Hide and go seek giants smile
Bowling ball closet horror

Stroll this uncanny heart...
All i have is shattered glass and wire
Tools to teach gypsies colliope...
Now my whole life

Hide and go seek giants smile
Bowling ball closet horror

And they know nothing...all i had was you
What was and will be...nothing has changed
