You hit me again. You hit me with your words.  
You hit me again, you always hit me when I'm feeling  
down.  
Leave me again, just like a hit and run.  
Leave me again, why do you leave me when I hit the  
ground.  
It's impossible to see right through, you're broken  
hearted.  
It's impossible to see through you, cause we've parted.  
It's impossible to see right through, don't break my  
heart too.  
It's impossible for me to see.  
You hit me again. You hit me with the truth.  
You hit me again, you always hit me when I'm down  
and out.  
You pass me again, for you I am no more.  
You pass me again, why do you leave me bleeding on  
my own.  
It's impossible to see through you, you're broken  
hearted.  
It's impossible to see through you, cause we've parted.  
It's impossible to see right through, don't break my  
heart too.  
It's impossible for me to see.  
You hit me again. You hit me with your words.  
You hit me again. You hit me with the truth.  
Why do you hit me when I hit the ground
