Hey girl you gotta shape up just so you know  
You act like it's over  
You're so scared of always being alone  
Just wait for the times when we're at home  
It's too easy  
For you to give up when the going gets tough and  
Next time please be  
The person you know that you are  
One more time, you gotta ride this out  
And I, all I want to do I help  
When you, are feeling down and out  
But if you  
Look to the stars, I will be right where you are, and I'll  
say  
One more time, that we'll be fine  
Untill we can find a way  
To get us both out of this place  
And then, you'll see  
The reason you have me  
So now you think we're spinning out of control  
It's so bad woah  
Oh my god you gotta shake shake shake this feeling  
She looked at me, she knew it was time to go  
I said to her, you know  
People will chance some people will choose to go  
But I will be here for now and forever  
One more time, you gotta ride this out  
And I, all I want to do I help  
When you, are feeling down and out  
But if you  
Look to the stars, I will be right where you are, and I'll  
say  
One more time, that we'll be fine  
Untill we can find a way  
To get us both out of this place  
And then, you'll see  
The reason you have me  
I don't want to take this for granted  
If it's our last goodbye  
I don't want to take it for granted if all that you say  
In one single second could all go away
