[by Monika Gyebnar]

Black is the color of your contradiction  
Black is the color of your forgotten dreams  
Black is the color of your eyes' reflection  
Black is the color of your enormous means  
When you're leaving  
You leave a black world behind  
When you're crying  
You cry black tears of your mind  
Black is the color of all your lost emotions  
Black is the color of the book that you have closed  
Black is the color of your dangerous illusions  
Black is the color of the end you miss the most
