Wanna know what you think about
Wanna know the way you feel about
The way you see the world
Girl I'll help your voice get heard
And when your all alone
I'll be waiting by the phone
To get you through the night
My voice will tuck you in real tight
When I can't be there for you
I'll pack my bags for two
I swear I'll find you girl, the only thing on my mind is
you
Don't wanna think about it
Don't wanna talk about it
You gotta work that body
Drop it girl and send it away

Chorus:

Your Touch has become a part of me
I'm isolated desolated unable to breathe
So what is with this discretion
Your pullin' me pullin' toward this obsession x2

My name is confidence
You are my confidant
I'll tell you this story right
You'll tell me I am wrong
I fell asleep one night
And dreamed that I could fly
Fly above the clouds, fly where I could not be found
With the sunlight beatin' down
My wings fell on the ground
They heard crashing sound, people watching from all
around
Your eyes were mesmerised
But I guess that's no surprise
Luckily they heard the cries my name will soon be
memorized.

Chorus x 4
