In a crowded room I sit alone  
And think about you, why I don't know  
What has come over me, why do I feel this way  
The distance brings me closer, when you're away  
I can't forget your face

What's your condition for letting go  
I want to look inside the window to your soul  
Come in from the cold, your secret's safe and warm  
No need to hide from emotions anymore  
It's in your eyes  
You can't disguise your every emotion

I know we share the same desire  
Let's walk through life  
Whath no regrets of what it might have benn  
Cause time can never change how much I care  
When it's so strong

You went away and left me here alone  
There's so much pain, I'm learning to let go  
Still in the dark I never knew  
The reasons why I still think of you

Every emotion leads me back to you  
Every emotion, no matter what I do  
Listen to me, am I getting through  
Every emotion, every emotion, leads me back to you  
Oh every, every emotion

Heard through frinds you're asking how I've been  
I never let it show, I've been doing time  
Trying to find you everywhere we used to go

What can I say, what can I do  
I haven't gotten over you  
You're still inside my soul  
I don't know why  
I can't erase you from my mind  
Oh why can't I just let go

In a crowded room I sit alone  
Think about you, why I don't know  
"Hello, how have you been?"  
You turn and walk away  
I guess there's nothing more to say
