I feel so alive  
You've got me feeling satisfied  
You're saying something  
You'd like to see me  
On my knees for you  
(Wouldn't you?)  
Love and hate  
Love and hate

You manifest the pain  
I welcome it in vein  
You're up to something  
But I can't believe  
That your intentions  
Could never be true  
(But I don't care)  
Love and hate  
Love and hate

I hate to love you still  
I'd burn for you in hell  
You give me fever  
In the third degree  
You've got the only  
Cure for my disease  
(I want you)  
Love and hate  
Love and hate

You've got me feeling satisfied  
Love and hate  
Love and hate
