I feel their eyes staring hopelessly  
Saying goodbye to tomorrow  
You hear them cry and you hear them scream  
Please set us free

Outer space for the master race  
Tell me what good does that do you or  
I high ideals but what is real  
Can't you hear, hear the children cry

[Chorus:]  
Save me, hold me, take me to your life  
Free me, seize me, do the thing that's right  
So you think your world goes down, down thru the ages  
Face me, help me, please set us free

Another gun, is it that much fun  
When are you gonna get that chip off your shoulder  
Worldwide so we tried  
Hunger kills, and that's been told her (she says)

Save me, hold me, take me to your life  
Free me, seize me, do the thing that's right  
So you think your world goes down, down thru the ages  
Face me, help me, please set us free

Genocide, suicide, hate is growing deep inside  
We see your money going down the drain  
Can you feel, death is real, you seem to think is no big deal  
You act like it's not your blame

Please set us free  
Please set us free

Please set us free  
Please set us free

Reach into your heart, you can help save the day  
Maybe soon good things will come your way  
Just remember, it's up to you and I

Speak your mind and change things what you may

Save me, hold me, take me to your life  
Free me, seize me, do the thing that's right  
So you think your world goes down, down thru the ages  
Face me, help me, please set us free

Please set us free  
Please set us free
