Power on, about to begin
Second level, this time I will win
Against the boss, who guards a gold cup
And then the phone rings and screws me up

When you call my home
And I say hold on
I press pause
I press pause for you
Now my love is true

So now I'm back
I'm back at the end
To beat the game
With my online friend
And then a sound from over my shoulder
Another phone call
I have to start over

When you call my home
And I say hold on
I press pause
I press pause for you
Now my love is true (x4)
