Bells ring to start everything  
As I look at my hoist  
I look to the top  
New trouble brews, so what do I do?  
Cause a bubble is fragile  
A bubble can pop  
Crowd gathers behind us  
Cheer on what they see  
Two enter the playing field  
One creature will leave (x4)

Colors collide as they shoot through the sky  
From the weapon below  
That's powered by me  
Margins are tight and I must aim it just right  
Or a rainbow conundrum appears on the screen  
Crowd gathers behind us  
Cheer on what they see  
Two enter the playing field  
One creature will leave

Boards couldn't happen  
And I can't help but laugh  
At the panic created  
When colors won't stop

Try not to miss  
Remembering this:  
That a bubble is fragile  
A bubble can pop
