Yell yell like a monster
And hiss hiss like a snake.
Yell yell like a monster
And hiss hiss like a snake.
You know I'm coming to get ya,
You know I'm real hard to beat.

Yell yell like a monster
And hiss hiss like a snake.
Difficult is the setting, another bonus for me
You're gonna bid my command now, like do my taxes
for free

No one can destroy me cause I come from outer space.
Must enslave your planet become master of your race.

Yell yell like a monster
And hiss hiss like a snake.
Yell yell like a monster
And hiss hiss like a snake

And though my bite is not poison
You are not more than I can chew.
Yell yell like a monster
And hiss hiss like a snake.
I used to listen to dance hall
I used to listen to ska.
But now I just like heavy metal.
Slayer, Metallica

No one can destroy me cause I come from outer space.
Must enslave your planet become master of your race.
Super sonic soldiers try to stop me where I stand.
I'll just laugh and then unleash my minions lend a hand

No one can destroy me cause I come from outer space.
Must enslave your planet become master of your race.
Lay down your defense and then I might just let you
live.
Bob and Whitney both will vouch it's my prerogative
