Grab a joystick and then come sit next to me  
If you've ever held a joystick  
Then I'm sure you would agree  
That if your hands aren't on a joystick  
You're not having any fun  
The best of toys, for girls and boys  
Good times for everyone

Wake up sleepyhead, get on out of bed  
So many games to play, come join in  
This sensation, my fixation  
What's to think about, just have fun

Grab a joystick and then come sit next to me  
If you've ever held a joystick  
Then I'm sure you would agree  
That if your hands aren't on a joystick  
You're not having any fun  
The best of toys, for girls and boys  
Good times for everyone

Don't go out tonight, let's stay inside  
Blow the hours away just you and me  
Let's see who will win  
I'll start, you jump in  
Who will come out on top  
Wait and see

Grab a joystick and then come sit next to me  
If you've ever held a joystick  
Then I'm sure you would agree  
That if your hands aren't on a joystick  
You're not having any fun  
The best of toys, for girls and boys  
Good times for everyone
