

Decyfer Down "Break Free"

Found a hole and fell inside myself
This emptiness by my own hand
So constricted, self inflicted
It's more than I can stand

[Chorus:]

Got to break free from this disease
In my core without a doubt I just want more
Life free from holes down deep inside
I need to find
I push to keep these walls from caving in
Trying though I can't fill the space
I had excuses, it never fuses
It's hard for me to face

[Chorus 2x]

Break Free

Got to break free
Got to break free

[Chorus 4x]
