What ever have I done
My only crime was love
I'm banished into darkness
Oh I'm afraid bewildered and amazed

Where ever will I go
How ever will I know
Lost and gone for ever
Oh I Feel so sad
This feeling huting bad

To all I've left behind
I din't mean to be unkind
I'm sorry

Falling, falling into space
Falling into space
Falling into time

Falling, falling into space
Falling into space
Falling into time

I've got to say good-bye
Before I break and cry
I'll miss you all so badly
I've never been alone
I wish that I were home

Falling, falling into space
Falling into space
Falling into time
