Your time is done, I'm moving in
I've come to far to lose, so go ahead and try me
You know I've just begun, just begun

[Chorus:]

You've never seen a fight like this before
(Like this before)
I'll take you down and leave you wanting more
(More)
You've crossed the line that I cannot ignore

(Cannot ignore)

You've never seen a fight like this before
(Yeah)

Feel the pain I'll bring down on you
You won't deny my will, cause what I start I'll follow
through
Craving all that I can see
Making something out of me

[Chorus]

[Chorus]
