English Translation:

This isn't like me
Can't calm down at all
Passer-bys all see through
I have some sort of special anticipation for you
Lost control what to do now
Almost can't leave
yeah
Conversation is very simple
why is my heartbeat so abnormal
Every movement in front of you
can easily be seen through
Because I'm most in the sea of your gaze

Armour clad heart break down for you
Only left with naked confessions
Love with no defense
Selfless must be brave bravery
Blocking the bullet of rumors
So baby let's go go go go go
Cold mask Break Down for you
All expressions reveal
The way I worship you
After hurting I still won't regret

A dependency on thirsting for you
So baby let's go go go go go

On the way take off our armour
Will run faster will all our might
Catching up to protect you
You won't get hurt
Even if I'll be wounded I don't care
for you
Oh yeah oh yeah

You may think it's too crazy (yeah you can call me crazy)

Actually I think that way too (but can't stop loving you)

Love is like a melody that can catch a virus

Armour clad heart break down for you

Only left with naked confessions

Love with no defense

A selflessness must be bravery

Blocking the bullet of rumors

So baby let's go go go go go

Cold mask Break Down for you

All expressions reveal

The way I worship you

After hurting I still won't regret

A dependency on thirsting for you

So baby let's go go go go go

Thought I almost found myself again

but I failed once more

You Breakin me down breakin me down

How many times already walked all the way and come back again

Love is breakin me down breakin me down

(Dance break)

Armour clad heart break down for you

Only left with naked confessions

Love with no defense

A selfless bravery

Blocking the bullet of rumors

So baby let's go go go go go

Cold mask Break Down for you

All expressions reveal

The way I worship you

After hurting I still won't regret

A dependency on thirsting for you

So baby let's go go go go go

Back up until the end Break Down

Like melted into ashes break Down

Break Down~

Break Down~

Love you make me completely break down~
