Enter the room and shut the door
I lie with you on the basement floor
I haven't screwed up
But I know I'm one step closer

I run my fingers through your hair
Your boyfriend's passed out right up stairs
I haven't screwed up
But I know I'm one step closer

Well, well
What do we have here?
Another one of my bright ideas
A little temptation, a little fear
Maybe I should just walk away

Too drunk, too stoned to even know
What's right, what's wrong, what's that is cold
I haven't left yet
But I know I'm one step closer

I change my mind, run for the door
Just to find out my girl friend's a little whore
It seems ironic that I find her on your boyfriend

Well, well
What do we have here?
Another one of my bright ideas
A little temptation, a little fear
Maybe I should just walk away

Hey, hey)
What do we have here?
(Hey, hey)

Hey, hey)
What do we have here?

Well, well
What do we have here?
Another one of my bright ideas
You little bitch, this much is clear

You've given me rhyme and reason

Well, well

What do we have here?

Another one of my bright ideas

A little temptation, a little fear

Maybe I should abstain

Should abstain
