"Down In Flames"

Visit "[Down In Flames](#)" on MotoLyrics.com

It's always been a source of attention.
You say that you'll be dead before then.
Our state of life says handle with care
Ten billion people breathe the same air
When it's gone I'm sure that you'll care.

Pray it's not to late.
The masses scream for one more day
Before we go down in flames.

And now we're full of violence and madness.
We watch our cities burn to the ground.
Where money fuels the fire inside
This ticking time bombs a matter of time
Before it blows us out of our minds.

Pray it's not to late.
The masses scream for one more day
Before we go down in flames.

Lost on this highway leading to nowhere
Still searching for some signs of life

One more day, down in flames
One More day, down in flames (one more day)
Pray it's not too late,
The masses scream for one more day
Before we go down in
Pray it's not too late,
The masses scream for one more day
Before we go down in flames.

Down in flames
Down in flames
Down in flames
