You're bored, gotta wonder if there's more waiting for
the dreamlife you thought you had in store trying to
feel something you can chase a life that's thriller living
on the edge drinking, smoking dream killers coulda
been shoulda been woulda been, what might your life
have been today you're not a has been but at your
life's end will you have regrets then, have regrets
then? are you ok with today if tomorrow is the end live
today through the future's lens don't wanna wish you
could rewind and play it again [chorus] stand up write
the soundtrack for your life it doesn't happen to you
you happen to life stand up, you know you're gonna
have to fight don't wanna lose the will to find your light
stand up, God gave you the gift of life it doesn't
happen to you, you happen to life stand up, do
something with your light you're a light on a hill,
you're meant to shine so bright so bright so bright so
bright so bright so bright so bright so bright we're all
scared, gotta wonder what's out there shooting down
the ones who did what we wish we dared everybody's
scared to karaoke in the open afraid we're not as
special as what we might be hoping so we're frozen,
haven't chosen just going through the motions faith
and belief, courage overrule emotions stand up and be
counted for something when it's time decide where
you stand, take your hands raise em high live today
through the future's lens don't wanna wish you could
reset and play it again [chorus]
