Ease off the suction  
I've held this position  
for an hour  
Wipe the blood from my chin  
Bring me some water

He's always happy about something (4x)

It was 1950  
Into the room  
it's gray  
It's covered with flowers  
He keeps his golden cup  
He makes jewelry for his daughter

He's always happy about something (4x)

He hands the drill to his son  
And he says go to it  
He's collected his share of pain  
And he puts y'all through it  
And he puts y'all through it

(Instrumental Break)

He hands the drill to his son  
And he tightens the soder  
He keeps his golden cup  
He makes jewelry for his daughter

He's always happy about something (4x)

He hands the drill to his son  
And he says go to it  
He's collected his share of pain  
When he puts y'all through it  
And he puts y'all through it
