"The Radio Has Expressed Concerns About What You Did Last N"

Visit "[The Radio Has Expressed Concerns About What You Did Last N](#)" on MotoLyrics.com

Well, the radio has expressed concerns about what you
did last night
I can't wait to see you come back home
Well, the radio has expressed to me that Georgia is on
my mind
I can't wait to see you come back home

Well, the radio has expressed concerns about where
you were last night
I can't wait to see you come back home
Well, the radio has expressed to me that Georgia is on
my mind
I can't wait to see you come back home

I've had a million cases, this is my millionth case of the
blues, oh-oh
I've seen a million faces
and all they can say to me is on the radio, channels
made of tears
on the radio, channels made of tears

Every Fourier transform has born a thorn on my side, I
can't wait to see
you come back home

The radio has expressed concerns about what you did
last night
I can't wait to see you come back home
Well, the radio has expressed to me that Georgia is on
my mind
I can't wait to see you come back home

It's on the radio, channels made of tears
It's on the radio, channels made of tears
