I notice, you baby, because you drive me crazy
The way that your dancing, has caused a chain
reaction

I know that you want me because your body told me
There just ain't nothing left, for me to do, I got to be
with you

Can I come over, yeah, can't you feel the vibe is right
For us to get it on tonight
Stop wasting time, baby it's the last chance to get last
dance

The sweetest sensation begin from body fusion
It's been my intention to make this love connection
I hope that you're ready, let's take things nice and
easy
Girl there ain't nothing else, for me to i got to be with
you
