Ahh
Ahh
Ahh

Whatever you want
It's all right
There's still a place in my heart
It's all right

There's something calm
You'll need no arm
("You're over the moon")
She said

You keep me warm
In some other form
("You're over the moon")
She said

Whatever you want
It's all right
There's still a place in my heart
It's all right

Whatever you want
It's all right
There's still a place in my heart
It's all right
