I'm tired of thinking things over,  
Conversations running 'round in my head,  
Good times last so much longer,  
And summer love going straight to my head,  
Some day when I care,

Cool skies, drinking the sunshine,  
Feel the wind blowing through my hair,  
It's our time, talking it over,  
Take you home for the hell of my bed,  
Some day when I care,

Sometimes, clouds will come over,  
There'll be spots,  
Some fun in your eyes,  
One day when we're feeling a lot better,  
Take a train to cooler climes,  
Someday when I care!
