### "I'd Be Sad If You"

so now we are heading off tonight  
and we're searching for a place to  
land  
I think i'd miss you night and day  
dreaming that i was  
insane

I would go shining bright cause i am on the moon  
i think i  
would see the cause i am on the moon

I listened to the radio  
and i  
heard the strangest think tonight  
i think i would be sad if you  
blamed me  
for doing stuff i hadn't done

I would go shining bright cause i am on the  
moon  
i think i would see the sun cause i am on  
the moon
