I wanna go down town to the movie store and buy a  
video  
Cos' my girl is  
sitting around watching movies on the satellite  
And all she want's to do is  
to sit around watching videos  
So please just spend a second with me  
now  
Cos' I have never done you any harm

Walk with me tonight x 4

But now she's gone, where she gone and where is my  
video  
She found a real  
cool guy with a brand new car and a video  
I have nothing to offer than soda  
and tiny little chewing gums  
So please just spend a second with me  
now  
Cos' I have never done you any harm

Walk with me tonight x 4

No, I will never come back for you  
She were the only one who was ever  
holding me tight  
But now I'm back again, I must be dreaming now  
Cos' she  
were the only one who was ever holding me tight  
And that's the  
truth
